Chapter 1

IGNORE THIS! Deliberately broken doc page for self-test

Here's a code inclusion that works:
```
//===== start_of_namespace==============================================
```

...and here's one that doesn't because I've deliberately broken the hook:

Here's a link that works

Sommerfeld radiation condition

and here's one that possibly doesn't because of an isolated "<a":

Sommerfeld radiation condition

Bla bla click on this and you won't get anywhere because the link is broken! bla bla.
